

MINOR-PROJECT....

Presented By: Riddhi Jain...

BCA 1year...

University: JECRC UNIVERSITY, Jaipur....

- **Topic:-**

Create a portfolio frontend of an E-commerce website(like amazon, flipkart etc).Use HTML5, CSS3 & Javascript for making the website more dynamic. Use all the attributes of HTML5 and properties of CSS3. Use inline, external & internal javascript in the project. Use as many functions as possible through javascript....

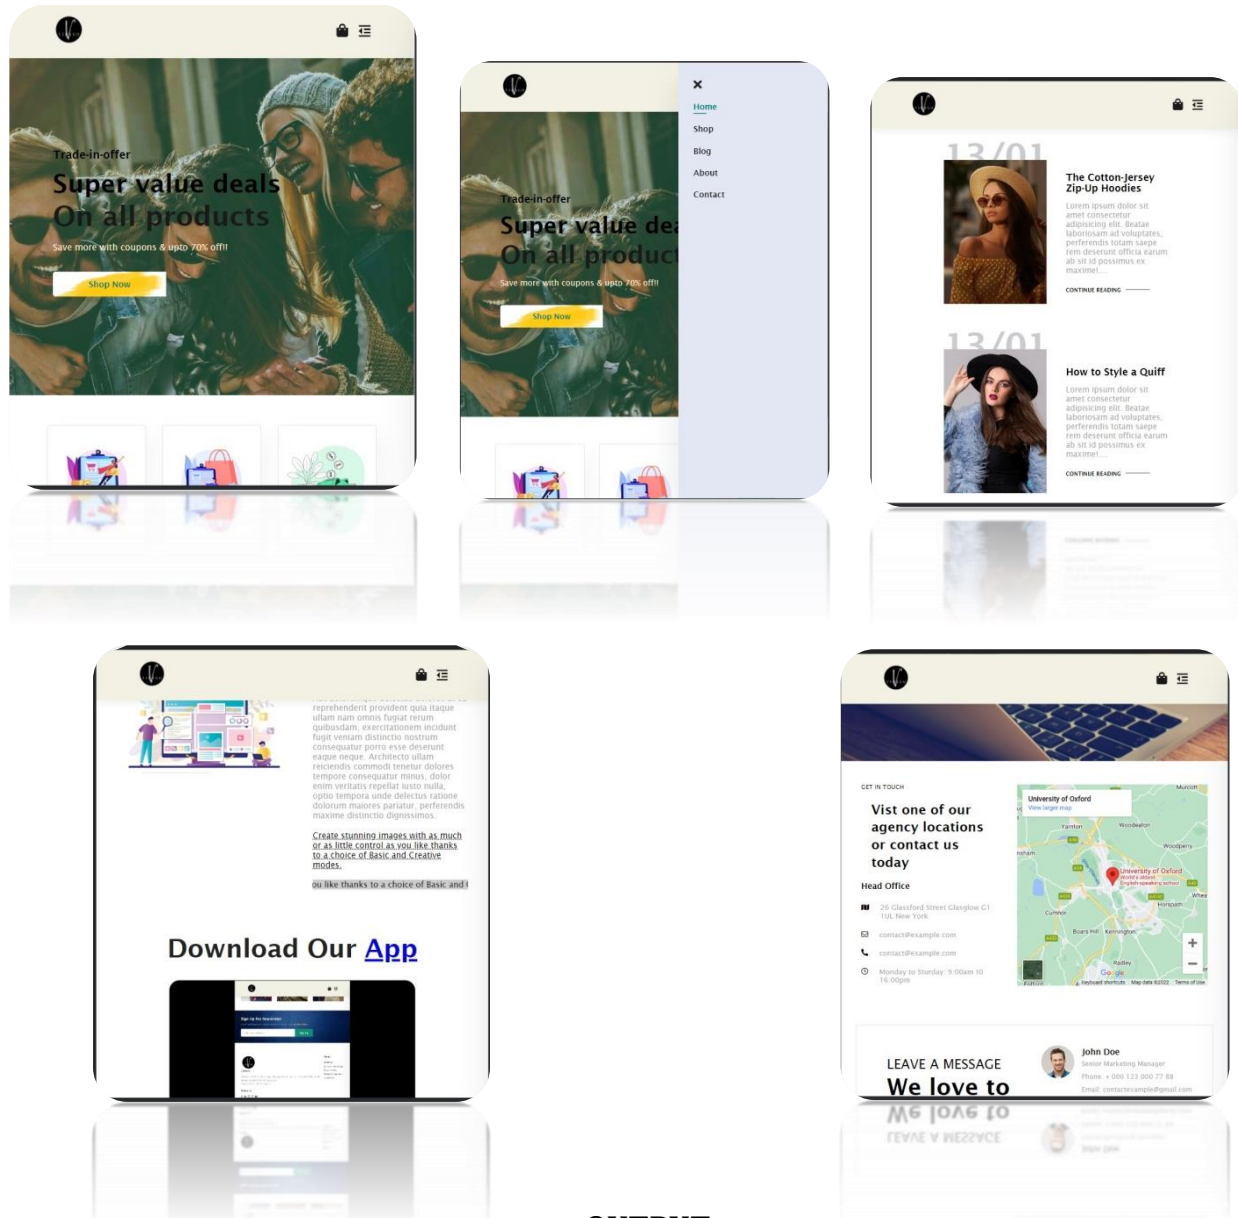

SITE..... VIRAGO.....

- Description:

- ✓ Site logo is shown...In circle, it is containing v in background at v.....virago is written in capital letters....
- ✓ Site name **VIRAGO** , is a synonym of amazon which means a bad tempered....
- ✓ This site is based on e-commerce site of clothes....
- ✓ It is totally made of HTML, CSS and Javascript...
- ✓ In navbar, I used Home-page, Shop-page, Blog-page, About-page and Contact-page with many types of icon.....
- ✓ I also used a footer....
- ✓ It can easily used by anyone....
